

Welcome:

Thank you for taking the time to contact us about Breast Augmentation with Just The Right Curves. Considering Breast Augmentation is a big decision, and one that shouldn't be taken lightly. When done for the right reasons, it is a procedure that can dramatically improve your quality of life.

Here at Just The Right Curves, our surgeon, Dr. Kirk Moore, has been working diligently over the past decade, analyzing the most common concerns of women considering breast augmentation, and reducing or eliminating them. **This means making breast augmentation simpler, safer, lessening downtime, and reducing pain, while continually achieving astonishing, natural results.** The result of his efforts is his exclusive breakthrough Practically Pain Free, Rapid Recovery Procedure©, which means you can achieve the natural results you desire, with little pain, and be back to work the very next day!

It is for this reason that many of the patients we see travel from out-of-town to take advantage of this exclusive procedure, and Dr. Moore's expertise. Therefore, we have come up with convenient scheduling options that help accommodate people traveling out-of-town. We recommend 3-day, one trip process, allowing for minimal time away, and maximum flexibility in your schedule. We have arranged great rates with local hotel providers, and can help arrange transportation as needed.

Please take the time to review these items included in this email packet, and as always, don't hesitate to contact us with any and all questions you may have!

Sincerely,
Just The Right Curves

What to expect:

Dr. Moore has a lot of clients that come from out-of-town. We understand it's hard to make multiple trips and juggle scheduling multiple visits around your daily commitments. Therefore, we have come up with a scheduling option that we feel accommodates those concerns.

It's a 3-day, 1-trip, single visit. You will have the consultation & pre-op on Wednesday, surgery on Thursday and a follow up Friday. Afterwards, you can travel home at your convenience. You will need to come back for a 3-week and 3-month post-op follow-up. We do have a secure online option for the 1, 3, 5, 7 & 10-year follow-ups. If you are interested in this option, we will give you information on taking pictures to email us. After Dr. Moore reviews them, we will let you know if he feels you could be a lift candidate or not and a closer estimate of pricing for you.

Our Facilities:

Dr. Moore has also worked hard to create a safe and comfortable environment for each of his clients. Our operating facilities are certified by the highest standards set forth by the American Association for Accreditation of Ambulatory Surgery Facilities, and the Joint Commission on Accreditation of Healthcare Organizations. Dr. Moore sees only one client at a time, scheduling appointments accordingly so that no one feels rushed or passed over.

From the initial consultation to the postoperative follow-up, our professional team members walk each client through the entire process. This ensures that all questions and concerns are addressed. In addition, our staff has a soothing bedside manner, helping our clients to feel at ease and welcome. Dr. Moore is renowned for his Practically Pain Free Rapid Recovery breast augmentation surgery, abdominal plasty (tummy tuck), breast lift and reduction, because he insists on the most technologically advanced equipment and techniques to achieve optimal results with minimal discomfort.

Our reliable staff is knowledgeable and professional, and we work hard to make your visits as comfortable as possible. All of our technicians are certified professionals who have undergone

extensive training in their respective fields. As a result, you will always receive the highest level of care, utilizing the latest techniques and cutting edge technology. All of our services are both reliable and safe, and are overseen by an on-site physician.
